

## COVID-19 & Premium Funding

If you experience financial hardships that could result in difficulties meeting your existing premium funding commitments, please contact your premium funder directly to discuss hardship provisions and support options available.

If you have not considered using premium funding before, it may be a useful tool to help ease cash flow and create the breathing space you need through the ups and downs of business.

Premium funding is a convenient and flexible way to pay your insurance premiums in monthly financed installments instead of one lump sum amount. Premium funding allows you to free up your cash flow to use elsewhere in the business. Premium funding allows for the ability to pay one or multiple policies with competitive interest rates that are tax deductible for business customers.

*If you have any queries regarding the premium funding options available to your own business, please contact your Knightcorp Account Manager directly. Alternatively please contact Knightcorp on 1300 656 001 or email [insurance@knightcorp.net.au](mailto:insurance@knightcorp.net.au) to receive the required support and assistance.*
